A Nationwide Program

WHO ARE WE

DX Tech Solutions is the corporate parent of the DX Virtual Campus. We were founded in 2018 as a **Social Enterprise** with a mission to help faith and nonprofit organizations evolve from analog to innovative digital environments with professional support.

DX Virtual Campus is an online community hosting workshops, conferences and bootcamps designed to educate and train incumbent and future faith and nonprofit leaders and workers how to adopt, use and manage digital technology platforms and resources to reach and engage diverse audiences with greater impact.

WORKFORCE DEVELOPMENT

"

We are excited to announce the launch of our **Faith and Technology Bootcamp** as a major workforce development initiative designed to help organizations we serve develop workers to better support Tech ministries while organically growing DX Virtual Campus workforce.
Our mission is to offer training to adult learners interested in acquiring new technology skills that prepares them to work in the digital space as staff, interns and future entry-level digital technology professionals for any organization.

OUR FAITH AND TECHNOLOGY BOOTCAMP OFFER TRAINEES INSTRUCTION IN MULTIPLE TECHNOLOGY DISCIPLINES TO SUPPORT DIGITAL INFRASTRUCTURES

Live Stream Broadcast

This is one of the fastest growing technology areas for many organizations and particularly the Faith and Nonprofit community. We are working with leaders to help create and deliver live stream TV broadcast, webinars, virtual conferences, etc.

Audio/Video Production

Our team works with organizations to setup and manage hybrid productions particularly in the local church environment integrating sound and video technologies to deliver live and pre-recorded productions.

Virtual Events Management

The global pandemic has changed the landscape for hosts of virtual events. Platforms like ZOOM, ZOOM Events and others have enhanced features and functionalities that oftentimes require operation and management from skilled practitioners.

Web and Mobile App Development

Websites and Mobile Apps are essential digital tools for organizations hosting and providing access to information and content on routine basis. These resources must remain dynamic to keep audiences updated and informed.

Remote Operations Center

Technology has evolved to allow management of systems and platforms to be performed remotely. This has also created many work-from-home opportunities for workers who need flexible schedules and closer access to work.

Client Relations and Customer Service

Our clients and customers like most, need consistent attention to ensure the greatest level of support. Managing relationships is critical especially working with multiple-technology environments.

HANDS ON – PROJECT BASED TRAINING PATHWAYS TO SKILL DEVELOPMENT AND INTERNSHIPS

01 Intro to Digital Technology

02 Intro to Video Camera Shoot and Record

03 Basics of Live Stream Technolgy

04 Basics of Virtual Event Platforms

A VIRTUAL ONLINE CAMPUS

SUPPORTERS

We plan to strategically partner with Faith and Nonprofit organizations across the U.S. who have a need to build or strengthen their organization's digital technology capacity. The partnership will involve local churches and nonprofit organizations referring individuals to attend our Bootcamp that they recruit from existing staff or members from the community.

SPONSORS

Our partners that have a need to build or strengthened their organization's digital technology capacity are also invited to become Sponsors. In this capacity you will make an investment to help underwrite the tuition cost for financially disadvantaged trainees you refer to attend the Bootcamp. There are several levels of sponsorships and associated benefits. **Visit here to learn more..**

IDEAL CANDIDATES TO ATTEND OUR FAITH & TECHNOLOGY BOOTCAMP

The ideal candidates to attend our Faith and Technology Bootcamp:

- Volunteers currently in Tech Ministry for Church.
- Interested in pursuing a career in Technology.
- Has a curiosity to learn a new technology skill.
- Must be willing to learn how to apply technology in a ministry and mission context.
- Persons reentering society from incarceration.
- Unemployed, Underemployed and lack employable work skills.
- Preferred to have a High School Diploma or GED.
- Must be at least 21 years of age.
- Able to go through a background check and drug screening with us or sponsoring organization.

Campus instructors are men and women who are practicing professionals in the digital technology field. We are also Faith leaders and Social Entrepreneurs who have a sincere interest to transform lives and communities, helping to improve the socio/economic status of disadvantaged people.
